TO ALL OUR PARTNERS

Report n. 07: MP3 and I.L.P.A. Group intensify security measures against Corona Virus and sign an insurance policy to protect employees

Dear customers and suppliers,

In these days MP3 continues to constantly work to ensure the **highest levels of safety and protection for people at work** and to guarantee the regular production and shipment of goods.

The threshold of attention remains high, especially pending the new measures of the government authorities in view of the so-called "**Phase 2**", which should start **on 4th May 2020**.

The situation is constantly monitored by our Crisis Committee, which since last February has already adopted all the measures envisaged by the Ministry of Health to protect workers.

Precisely to guarantee greater safety and give concrete support in facing the emergency, **MP3 and the I.L.P.A. Group have signed an insurance policy in favor of all employees**, to cover part of the risks represented by any contagion and the development of the COVID-19 disease.

Thanks to this initiative, a series of specific tools are made available to workers, which provide allowances for hospitalization and convalescence, as well as additional assistance measures designed to give support to people and their families.

This way we want to underline once again that it is **people** who are at **the center of our work**, and it is by being together in the difficulties that we will also overcome this challenge.
