

Valsamoggia, 23/03/2020

TO ALL OUR PARTNERS,

Report n. 05: Decree of 22 March 2020 Corona Virus Italian Territory

Dear customers and suppliers,

On **22.03.2020**, given the evolution of the epidemiological situation, the government authorities have issued a new Decree, in force until **03 April 2020**.

In relation to this Decree and the current situation, our General Director intends to send you a message, particularly significant for customers and suppliers who operate outside the Italian borders.

Dear All,

I want to inform you about the latest developments related to Covid-19.

In accordance with the current Government Ordinance of 23/03/2020, we will stop the production of cut SHEETS addressed to industrial ware until 03/04/2020.

Conversely MP3 will be normally running its production of material on a REEL addressed to the packaging industry.

Our shipping and logistic Department is fully operating all over this period to organize deliveries at the best of our possibilities in the current scenario.

I want to underline that we always followed the guidelines of our Government: but we would like to take the opportunity to recommend to all our partners to acknowledge from now how serious is what happens in Italy and how this could be serious for others as well.

At present we can indicate that in Europe our country is a trailblazer in this situation: but just for this reason, we could appreciate that the measures to contain the virus taken with too much graduality were not sufficient.

*I recommend then to all our partners to straight take the most stringent actions to avoid the virus spreading in your areas. All Governors and Mayors are asking the population to stay home. **It is the only solution.***

running for excellence

PRODUCT RANGE Reels PET · PLA · PS · PS/PE · PS/EVOH/PE · PET/PE · PET/EVOH/PE · PP Cut Sheets ABS/PMMA · ABS · PS

Just think how difficult can be taking decisions knowing that employees going to work can risk their own health and the ones of their relatives.

Have a look to the video enclosed: this explains the situation with this pandemic, how it can be.
